

CALL FOR PAPERS

ISBI'08

2008 IEEE International Symposium on Biomedical Imaging: From Nano to Macro

General Chair

Jean-Christophe Olivo-Marin
Institut Pasteur, Paris
France

Program Chairs

Isabelle Bloch
ENST, Paris
France

Andrew Laine
Columbia University, NYC
USA

Special Sessions

Josiane Zerubia
INRIA, Sophia-Antipolis
France

Wiro Niessen
Erasmus Medical Ctr, Rotterdam
The Netherlands

Finances

Elsa Angelini
ENST, Paris
France

Plenaries

Christian Roux
ENST Bretagne, Brest
France

Tutorials

Michael Unser
EPFL, Lausanne
Switzerland

Industrial Liaison

Spencer Shorte
Institut Pasteur, Paris
France

Nicholas Ayache
INRIA, Sophia-Antipolis
France

Institutional Liaison

Claude Boccard
ESPCI, Paris
France

Technical Liaison

Sébastien Ourselin
CSIRO, Brisbane
Australia

Publications

Habib Benali
Inserm, Paris
France

American Liaison

Jeff Fessler
University of Michigan, Ann Arbor
USA

Local Arrangements

Séverine Dubuisson
Univ. Pierre et Marie Curie, Paris
France

Vannary Meas-Yedid
Institut Pasteur, Paris
France

The Fifth IEEE International Symposium on Biomedical Imaging (ISBI'08) will be held **May 14-17, 2008**, in Paris, France. The previous meetings have played a leading role in facilitating interaction between researchers in medical and biological imaging. The 2008 meeting will continue the tradition of fostering cross-fertilization between different imaging communities and contributing to an integrative imaging approach across all scales of observation.

ISBI 2008 is a joint initiative of the IEEE Signal Processing Society (SPS) and the IEEE Engineering in Medicine and Biology Society (EMBS), with the support of Institut Pasteur and Optics Valley. The meeting will feature an opening afternoon of tutorials and short courses, followed by a strong scientific program of plenary talks and special sessions as well as oral and poster presentations of peer-reviewed contributed papers. An industrial exhibition is planned.

High-quality papers are solicited containing original contributions to the algorithmic, mathematical and computational aspects of biomedical imaging, from nano- to macroscale. Topics of interest include image formation and reconstruction, computational and statistical image processing and analysis, dynamic imaging, visualization, image quality assessment, and physical, biological and statistical modeling. Papers on all molecular, cellular, anatomical and functional imaging modalities and applications are welcomed. All accepted papers will be published in the proceedings of the symposium and will afterwards also be made available online through the IEEEExplore database.

More Information

isbi2008-info@ieee.org

Venue

Marriott Rive Gauche
Paris
France

Important dates

Deadline for submission of 4-page paper:

December 7, 2007

Notification of acceptance/rejection:

February 15, 2008

Submission of final accepted 4-page paper:

March 14, 2008

Deadline for early registration:

March 14, 2008
