## TOPICS:

Created intentionally or spontaneously, cyberworlds are information spaces and communities that immensely augment the way we interact, participate in business and receive information throughout the world. Cyberworlds seriously impact our lives and the evolution of the world economy by taking such forms as social networking services, 3D shared virtual communities and massively multiplayer online role-playing games.

The 15<sup>th</sup> International Conference on Cyberworlds will cover a wide range of research and development topics including (but not limited to):

- Networked and shared virtual worlds
- Virtual collaborative spaces
- Shape modeling for cyberworlds
- Virtual humans and avatars
- Multimodal interaction and rendering
- Computer vision for augmented and mixed reality
- Cognitive informatics
- Brain-computer interfaces
- Affective computing
- Social computing
- Online communities
- E-learning in cyberworlds
- Multi-user web games
- Art and heritage in cyberspace, cyber-museums
- Cyberethics and cyberlaws
- Cybersecurity
- Welfare in cyberworlds
- Data mining and warehousing in cyberworlds
- Visual analytics in cyberworlds

Full, short and poster papers are called to be submitted. All papers will be published in the same conference proceedings published by Conference Publishing Services (CPS) as well as submitted to the IEEE Xplore Digital Library and reference databases of all major referencing indexes.

## VENUE:

The conference will be held in Chongqing, which is a famous historical and cultural city and a birthplace of Bayu culture. It has more than 3000 years of recorded history and this is a place of many tourist attractions including UNESCO World Natural Heritage and World Cultural Heritage sites. You can enjoy in Chongqing authentic Sichuan cuisine including the famous Hotpot originated from there.
