

VENUE

Lisbon is known as the white city, thanks to its unique light. The luminous environment and the kind climate allow for marvelous walks through the old town. The city has a beauty that extends beyond its famed monuments, an atmosphere that is best experienced directly in its quaint streets and alleys. The culture, architecture and people found in the city's historical neighborhoods are fundamental aspects of Lisbon's identity, and those who explore them will discover their own personal map in this extremely lively city.

7th International Conference on Knowledge Management
and Information Sharing

Regular Paper Submission: **June 2, 2015**

MORE INFORMATION AT: WWW.IC3K.ORG

The purpose of the IC3K is to bring together researchers, engineers and practitioners on the areas of Knowledge Discovery, Knowledge Engineering and Knowledge Management. IC3K is composed of three co-located conferences, each specialized in at least one of the aforementioned main knowledge areas.

 **7th International Conference on Knowledge Discovery and Information Retrieval**
Program Chair | **Ana Fred**, Instituto de Telecomunicações / IST, Portugal

 **7th International Conference on Knowledge Engineering and Ontology Development**
Program Chairs | **Jan Dietz**, Delft University of Technology, Netherlands
| **David Aveiro**, University of Madeira, Portugal

 **7th International Conference on Knowledge Management and Information Sharing**
Program Chair | **Ke Cheng Liu**, University of Reading, United Kingdom

 **IC3K Conference Chair**
Joaquim Filipe, Polytechnic Institute of Setúbal / INSTICC, Portugal

IC3K Keynote Lecture
Jan Vanthienen, KU Leuven, Belgium

IN COOPERATION WITH:

PUBLICATIONS:

All accepted papers will be published in the conference proceedings, under an ISBN reference, on paper and on CD-ROM support. Moreover, all papers presented at the conference venue will be available at the SCITEPRESS Digital Library.

Proceedings will be submitted for indexation by:

SATELLITE EVENTS

Workshops

The purpose of workshops is to provide a more interactive and focused platform for presenting and discussing new and emerging ideas. The format of paper presentations may include oral presentations, poster presentations, keynote lectures and panels.

Special Sessions

Special sessions are very small and specialized events to be held during the conference as a set of oral and poster presentations that are highly specialized in some particular theme or consisting of the works of some particular international project. The goal of special sessions is to provide a focused discussion on innovative topics.

SSTM (KDIR) - Text Mining
Chair: Ana Fred

RDBPM (KMIS) - Research and Development on Business Process Management
Chair: Nuno Pina Gonçalves

Tutorials

The role of tutorials is to provide a platform for a more intensive scientific exchange amongst researchers interested in a particular topic and as a meeting point for the community. Tutorials complement the depth-oriented technical sessions by providing participants with broad overviews of emerging fields.

Demos

Demonstrations provide researchers and practitioners with an exciting and interactive opportunity to present their systems, artifacts and/or research prototypes, either at a regular session or at the technical exhibition. In any case, it is required to avoid a commercial format, even if the demo consists of presenting a business product or service. Instead, the presentation should focus on technical aspects.

Panels

A panel is typically one to two hours session in which four to six speakers distinguished members of the scientific and/or enterprise community, briefly present different perspectives/opinions on key issues with the goal of stimulating a lively, controversial, and provocative discussion.

To propose a Satellite Event, contact: ic3k.secretariat@insticc.org

DOCTORAL CONSORTIUM

Doctoral Consortium on Knowledge Discovery, Knowledge Engineering and Knowledge Management
