The 20th Pacific Conference on Computer Graphics and Applications (Pacific Graphics 2012) will be held in Hong Kong, China on September 12-14, 2012.

Pacific Graphics (PG) is an annual international conference on computer graphics and applications. As a highly successful series, Pacific Graphics provides a premier forum for researchers, developers, practitioners in the Pacific Rim and around the world to present and discuss new problems, solutions, and technologies in computer graphics and related areas.

Paper Submission
Original unpublished papers are invited in all areas of computer graphics and its applications. The topics include (but are not limited to) modeling, rendering, animation, and imaging, as well as visualization, human-computer interaction, and graphics systems and applications. Any interesting new ideas related to computer graphics and applications are welcome.

Paper Publication
The conference will have a full paper track as well as a short paper track. The full papers will be published in the conference proceedings which will appear as a special issue of the Computer Graphics Forum. The short papers will be made available to the participants in electronic form through EG digital library.
