

3DPVT 2010

Where 3D computer graphics and vision meet!

5th International Symposium 3DPVT 2010
3D Data Processing, Visualization and Transmission
Espace Saint Martin, Paris, France, May 17-20, 2010
<http://www.3dvt2010.org>

This meeting presents new research ideas and results related to the capture, representation, compact storage, transmission, processing, editing, optimization and visualization of 3D data. These topics span a number of research fields from applied mathematics, computer science, and engineering: computer vision, computer graphics, geometric modeling, signal and image processing, bioinformatics, and statistics. This symposium follows previous highly successful events in Padova 2002, Thessaloniki 2004, Chapel Hill 2006 and Atlanta 2008.

General Chairs:

Adrien Bartoli, France
Marcus Magnor, Germany

Program Chairs:

Robert Fisher, UK
Christian Theobalt, Germany

Publications Chair:

Jean-Sébastien Franco, France

Publicity Chairs:

Adrian Hilton, UK
Pradeep Sen, USA

Local Arrangements Chair:

Renaud Keriven, France

Website Chairs:

Alessio Del Bue, Portugal
Pierre Fite Georgel, Germany

Scientific Advisory Board:

Yiannis Aloimonos, USA
Guido M. Cortelazzo, Italy
Kostas Daniilidis, USA
Frank Dellaert, USA
Luc Van Gool, Belgium
Concettina Guerra, Italy
Avi Kak, USA
Jan J. Koenderink, NL
Pietro Perona, USA
Mark Pollefeys, USA
Jarek Rossignac, USA
Gabriel Taubin, USA

Thanks to E. Grossmann for the Eiffel Tower model

5th International Symposium

3D Data Processing, Visualization and Transmission

Paris, France May 17-20, 2010

Presenting research related to the capture, representation, storage, transmission and editing of 3D data, including:

- Acquisition and Recognition
- Processing and Transmission
- Interaction and Visualization
- Application Areas

Full Paper Submission Deadline:
December 16, 2009, 5pm GMT
<http://www.3dpvt2010.org>

See full details on back

Important dates

Full Paper Submission: December 16, 2009, 5pm GMT
Conference: May 17-20, 2010
