VisWeek 2012

SCIVIS · INFOVIS · VAST
14 - 19 OCTOBER, 2012 SEATTLE, WASHINGTON, USA

23nd IEEE SciVis Conference | 18th IEEE InfoVis Conference | 7th IEEE VAST Conference

Call for Participation

VisWeek 2012 is the premier forum for advances in scientific and information visualization. The event-packed week brings together researchers and practitioners from academia, government, and industry to explore their shared interests in tools, techniques, and technology. We invite you to participate in **IEEE Visualization, IEEE Information Visualization,** and **IEEE Visual Analytics Science and Technology** by sharing your research, insights, experience, and enthusiasm.

CO-LOCATED SYMPOSIA

2nd IEEE Symposium on Large-Scale Data Analysis and Visualization

LDAV aims at bringing together domain scientists, data analytics and visualization researchers, and users, and fostering the needed exchange to develop the next-generation data-intensive analysis and visualization technology. Visit ldav.org for more information.

2nd IEEE Symposium on Biological Data Visualization

BioVis aims at bringing together researchers from the visualization, bioinformatics, and biology communities to establish an interdisciplinary dialogue and to promote the sharing of expertise, between both meeting participants and the communities at large. Visit biovis.net for more information.

LOCATION

In 2012, IEEE VisWeek comes to the beautiful city of Seattle, Washington. Downtown Seattle is easily walkable and waiting to be explored. Shopping, dining, arts and visitor attractions are within steps of hotels and inns. The city is surrounded by pristine waterways, two mountain ranges and three national parks. To the west lies the only temperate rain forest in the continental U.S. To the east, a world-class wine region. Visit http://www.visitseattle.org
